Any person or organization performing activities covered by an annual permit shall give advance notice to the Oscoda County Road Commission within 3 working days before (no later than 8:00 a.m. on) the date of the scheduled activity. Providing the following information:

Name/Number of Permit Holder;
Contractor Name;
Contact Person/Phone;
Type of Activity;
Location of Activity;
Expected Start and Completion Date.

Emergency Operations

In time of disaster or emergency, or when utility lines or facilities are so damaged as to constitute a danger to life and property of the public, access to the same may be had by the most expeditious route and the work is to be done in a manner which will provide the traveling public with maximum possible safety. Notice of such situation shall be given to the nearest police authority and the Road Commission as soon as can reasonable be done under the circumstances. During normal Road Commission working hours the permittee shall advise the Road Commission of any operations within right of way which affect traffic operations or the highway structure or facilities prior to performance of the work. After normal Commission working hours, the permittee, at the beginning of the first working day after the emergency operation, shall advise the Commission of any operations which affected traffic operations or the highway structures and facilities. If determined necessary by the Commission, the permittee shall secure an individual permit for such work after notification.

All permit applications should be sent to the Oscoda County Road Commission with appropriate attachments (i.e. area sketch, etc.) and a self-addressed stamped envelope.

Checks are to be made payable to the **Oscoda County Road Commission.**
